REMARKS

Applicants believe the JP 2000-13625 reference is pertinent because it discloses a technique for correcting an image on the basis of a histogram obtained by image analysis processing in a printer driver, but submit that the reference fails to disclose or suggest the feature of transmitting the histogram to another apparatus; that is, a printer does not receive either the image data or the histogram data. An English translation of the Japanese document is not readily available to Applicants' attorney, but may be provided if required by the Examiner. An English abstract for the JP 2000-13625 obtained from a commercial data base also is provided as an English language statement of relevance for the Examiner's consideration.

FEE STATEMENT

The present Information Disclosure Statement is being filed within three months of the filing date of the present application, or prior to the mailing of an initial official action. Accordingly, Applicant believes that no fee is required. Nevertheless, the Commissioner is authorized to charge any fee necessitated by this paper to Deposit Account No. 06-1205.
